Projects

- **Portfolio Website**
[GitHub Repo](#) | [Live Demo](#)
A personal portfolio website designed to highlight skills, projects, and experience in a sleek, responsive layout. It features smooth animations and an interactive portfolio gallery, providing a seamless user experience across all devices. Built using JavaScript and SASS for dynamic and visually appealing design.
- **Soul Craft Society**
[GitHub Repo](#) | [Live Demo](#)
A landing page created for the Soul Craft Society NGO, focused on community outreach and volunteer engagement. The page includes a custom volunteer registration form integrated with EmailJS for real-time email notifications. Designed with HTML, Tailwind CSS, and JavaScript for responsiveness and modern design across all screen sizes.
- **Starlit Chronicles**
[GitHub Repo](#) | [Live Demo](#)
A full-stack blog platform built with Next.js, Node.js, and MongoDB, designed for easy content creation and sharing. The blog includes a dynamic carousel for featured content, a user-friendly interface, and SEO-optimized pages to enhance visibility. Styled with Tailwind CSS and Embla for smooth, interactive design elements.
